Dear Friend Mill,

I found your letter at home when I returned from a trip H. last week on the Galena. I was out all of Sept. - but a little over 2 days with cruisers looking over some timber limits. Going home from Vict. to Seat. a woman came to me to ask information of one thing led on to another until we found out I had a niece in Oberlin & their daughter had boarded at a family named "Bulder" & so on down the list of friends we talked about them all. This name Sinclair. I am glad you used checks all right.

We had made sales & the money was in hand to pay my fall bills. We have had a terrible time over Orls work. He paid for adv. 29 licenses twice. Bought a lunch for the work & had lots of expense out of it for time of boys & many other things. The 2^d adv. caught the money

crash. Checks sent us to be used they would not - cash until
the money checks were returned to N. York & cash sent out-
here & the result money was 1 day too late. If the adv. had
been put up correctly in the first place we would have
had the money & the licenses would have been granted.
as it is we have lost everything. P has been trying to
settle with O. It of course means the loss of his
time but it - I mean means more to us. Our time went in
& over a thousand dollars. So it - cuts no all. Wishing for
you & yours all the best things, I am

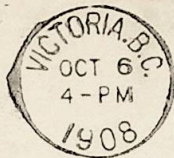

Your friend & brother in Christ,
