

Alert Bay B.C.

Nov 2 1908.

Dear Mr Belden :-

Under separate cover I am sending you by this mail an assortment of photographs which I thought might prove interesting to you, I would have sent you two or three more if I had had any that I thought would be of interest to you. I took some on our hunting trip but the weather was so bad that they were underexposed although I gave them a wide open lens $7/25$ second. It was a disappointment to me but I could not give them a time exposure. Next summer however I hope to get some views of Knight Inlet which is the finest scenery on the Coast & will send you some then.

Yours sincerely
Tom Stalley
