Dear Old boy

Yours Rick in good shape. That I spend a few moments to reply to so worthy letter. When we were working over on the east side nearly every cross roads was a sign. Mt Lebanon 15 m. Cardington 14 m. etc. Once or twice some Mt G. people stayed at our hotel. But luckily no one to whom I entangled with my persuasive (?) powers. I wonder how the what's the names down in Westfield - greens that the name of the seat of your operations - are getting along. Soberly is the only name I can think of. Everything is O.K. down here. Mr. - my business & I are working in the city this week or last week rather & expect to this week. We have gone out with the chef some & will probably do so all the time in a week or so. That certainly is a picnic. I shall probably be down here in this old town now until I quit Oct 1st. I shall be a week late at school but I guess with the little study I manage to get in here I can make it all right. About books I don't know what you want.

MARION, OHIO. 190.....

If we have got anything you are welcome to it. Tell me what you will need & I'll write home & tell them to hunt it up or you can ask Charles my brother about them. I have just written to Rudine to see if he can dispose of those books. Can you write right back telling me what books there are. - Bindings - & no fresh. Binding. Perhaps he can get them off my hands. if so I'll get something like \$18. & that certainly isn't to be dispised in my condition. You are beating me all to sticking in making plunks. Do you mean you have cleared 70 plunks when you wrote to me. Do you pay fored if I may ask. Of course we get the best there is down here. & the work is by no means hard. We have had only & very few raining days down here. but it has been raining off & on for several days now. It had been so hot & dry I suppose the rain was bound to come. Well I guess I'll have to quit now. & write to Geraldine my sister before Church. Write again soon & I'll try & answer it before I come back. Marion O. U.S. Geol Sur. Hotel Weber. your old pard
Dunlop.
