

Madison July 24th 1890

Sea Breeze

Our dear Ellen, we were very happy to receive a letter from William last evening and I intended to give myself time to write a letter to William this morning but we have had several calls to detain, & now have come in from a walk with uncle Selden and hasten to tell you our plans. There is a wonderful improvement in uncle S. since we have been here, he is growing stronger every day, and says he thinks he best stay here at the sea side until his business at home calls him to N Jersey, we now think of remaining here all of next week, uncle Selden said he

would love to see you both and
hoped Ellie could come next week
but if she did not he thought
we might visit you some time
this fall, I think it will be best
for him to remain here as long
as he can I would like to tell you
more about him &c and about
this pleasant sea side cottage, but
it is mail time -

I almost forgot to say that
Edward Heill is at home & is very
queer & I do not know that the
twins best come to aunt Carolins
at this time we want to see
the children & the younger chil-
-dren would not notice him
as Mary or Ellen

I have written in great haste
with a heart full of love
from uncle S - & me
your Aunt Ellen

Uncle S - says keep us advised of your plans
