Our dear ones, at Bridgeton.

It is now late, in

the Ev'g and we just finished letters to
Jo. & to Aunt Caroline & others and will do
myself the pleasure to scribble off a few
lines to you especially as Evelynna is
three years old to-day. She must be quite
a "big girl" by this time. It is so long since
she was here with us, and her big brother
Willy who used to be so good to look after
her to see that she did not get hurt, and
then those two bigger girls, Mary and Ellen,
that go to school. Now a days, I have been
expecting for a long time past to get a letter
from them either a printed one, or a really
written one, I am very anxious to know
what they are studying, and if they like
their school and studies, I expect they have
had lots of snow at Bridgeton this winter,
we have had drifts as high as our Porch in

Some places. We are in two, you mother and
I. Keeping Lovers Hall than write occasionally
I have somebody to come with us, not often,
we are a very quiet old couple of people
Newspapers is not much news to tell
All abt status quo at all of the home,
I hear quite oft from Jenny & Carol
But not very oft from Ellen
Will you get the Liberator if so you'll see
in 10-days issue how I nominate
Gen. Rufus Harrison for Pres., he is a Pres
Elder. Tho' we don't put that in the bill at
present. How are you getting on with
your history of Presbyterianism in Ind?
I notice from many sources it is quite
a prominent topic. Get you out in advance
of some that will be along soon.
My wrist is so stiff I can hardly write
legibly. To day had a sprawling fall recently
and put out both hands to catch as with
lots of love to all the dear little ones & yourself
from Grandpa & Grandma I am as ever
your affec father
