

Dear Nellie Bly-

Your nice little

letter to the little girls was read with
much pleasure. They are real loving
little children and you say you
are getting along nicely with your
lessons -

I just want to write and thank you and
William for letting the twins be here and for
all the kind thought, and many days
you have given in my behalf. I do trust
you will take good care of your health both
of you - we are sorry to hear of rheumatism or
any other trouble afflicting ~~any~~ of you. and
trust it may be effectually cured - I trust
and pray that your lives health, and pros-
perity may be very precious in the sight
of the Lord. Do take very good care of your
self, and Tom too. Mother's former concern

and care for him - and his health came
afresh to my mind this morning - and it
is echoed with earnestness, and affect-
ion by me for whom as for others I
think he has always intended kindness.

Mama now calls me to go down and do
the dishes, clear off the table etc. as she
has something else to attend to - goodbye
dear sister - From yours affectionately - Lulu.
