Brake and Motor Testing Machine Co.

THE HYDRAULIC DYNAMOMETER FOR BRAKE TESTING

1516 SOUTH FLOWER STREET

Los Angeles, Calif.,

3248 Burton Ave., Lynwood, Calif. Sept. 6th '27.

Dear Mother -

We just sent some of the latest pictures of us all taken here while Will was here to Evelina to send on to you after she has seen them. They are for you to keep if you like. You are the only person that we are real extravagant about sending pictures to. I wish you could see our lovely baby and our lovely home and have rides with me in our fine Hudson Coach. The next best thing is to have pictures so that is why I want to send you all that we take.

I expect to leave home for San Francisco this week and expect to spend a couple of weeks there, If business is good I intend to go on to Portland, in which case I hope to see Will on the way. I wish Coral could go with me but it is not advisable to take the baby along on such a trip at his age and size.

Teddy is such a lovely baby: I know you would think so too. He smiles and plays with himself and entertains himself altho he likes much better to be entertained, of course. He is very responsive. We both think he is the most wonderful baby in the world.

We enjoyed Will's visit here, but it was certainly short - only three days. Now that he has expectations of getting married I suppose he wont be doing much more visiting around. The lawyer for Mr. Hillis was away while Will was here, but I am going to see him now instead of Will attending to it. I hope we can get the thing settled up some way permanently soon.

I hope you are well and happy. I wish we could see you - we do not even know where you intend to spend the winter. I wish it were here. When you get time write us all about your plans and everything.

Lots of lone Selden.

Maybe you would like & send some of your picture that was have sent to you, around, & Evelina, I she could return them & you.
