

Darling Lady - Thank you so much
for your dear sweet letter & ad-
vice & sympathy & for saying you
would not be afraid to ~~come~~
ride with me. I have been think-
ing so much about you & about
Bennie & how glad I am you could
go to her in her need. I know it
is hard on you but my great hope
is that when Piddie & Mabel get
gone they will still want me as
want you & all of us do. I have sent
you letter on to Willie.

Willie has been home for a week & I
feel worried over him. Of course I
was scared at first & that as he seemed
to be getting better I just enjoyed having
him home but now I am worried
again. We have been dialing his
kidney trouble but now he ~~is~~ ~~not~~ ~~the~~ ~~same~~. That
reason I think ~~is~~ ~~not~~ ~~the~~ ~~reason~~.

Go to the recipient - I have not very much.
Cough since the cough was off but have
trouble to see. The cough the present is a little
thin line - of a distance looks like a couple
of hours. The side in our ear was 194² but
some ~~other~~ was really driving a party - that
was diagnosed before. Spirits are so plentiful
expensive now. There is not lovely product
it - I have now me to get out but
you going to wait my turn if he will take
my bank money. I have to get quite
that much - the white take my last and
now this to. Don't mention this all will
you? - I mean the amount etc. There
have been an output lot of my pet's egg
before this month - big ones like that & the
ones which are going to be 25¢ for the pair.
But if he will give me

Monism wants him to find who
is the best man in the country to
consult ~~egg~~ + consult him. Dr.
Barrett has been coming to see him
every day taking a sample to be
examined at the hospital & Dr. M.
has only been consulted but he has
been consulted by Dr. Barrett. We
have been cutting out all meat,
protein, eggs, salt. A week ago
yesterday was the first he was sick
then the next day he got up & went
to the office & made a couple of calls
& then came back ~~to bed~~ to bed.
He was in bed the day before yester-
day in the afternoon. He has been up
since then but not doing any thing
tho' he has gone to town etc & is going
to go back to work in a day or two
but he may go somewhere to consult
some one when he finds where with
I do feel worried. Marie is so precious
in me - more so all the time.

I feel so sorry for Auntie's family - so sad.
So every family all sad like ours - I don't
mean the entire but our own old family
& in some way or other nearly all grandkids
children & grand children. I suppose many
are. Our folks would not think ours was
maybe.

I wish many could come here when you
go to Clifton. So bad I wish it. So bad I
wish you could come here.

In letter, Mimi is just talking too cute
she says "I did" & "I do" & "I don't" and says
a loads of things so cute

Good night, sweet beautiful, darling

Sally. You loving grateful

I don't know whether I have thanked many as my
"next" has for her letter. When she has seen the letter

she's that's
