

Navy darling,

I don't care what
Dean Harris gives me —
please don't worry about
me. I told Dean Harris
that naturally I preferred
Biography to Modern Drama
(so I suppose she preferred
to give me M.D. - if she has)
because it was my own
course, but that I thought

if a wiser use of my
training to give me middle
English — I don't care
Please go ahead with
your plans without
thinking what happens
to me. For you know
quite well that the
manipulations my courses
will receive so under
so many other influences

that are independent of
what I may take for
you.

No, I haven't heard
from the Beau. —

Please go ahead making
the best arrangement
you can for yourself.

Love to you,
C.
