needs
her
money
some
the

dearest Judy + Ellen + Mary,
I don't know how to
reflect to
reflected to
reflected to
reflected to

reflect paper when I could remember
clothes, sheets, framed
it is this paper scrap. in part

We have stepped no end of
boxes, trunks, cartons + odds +
ends in the second story + are
fully settled in this story. It is
harder moving with no small
child as Belden in his various
processes have to be attended
to at the schedule hours no
matter what else. The lovely
neighbors at 504 Cuyler were
just so helpful + had a
woman or couple of hours a
day for a half dozen days
before we moved. Otherwise we
have not had extra or any
help at all the end. Pretty
smart as they are! Henry was
home the day the van moved
us. We had one day we
felt + Henry got a little
expressman to move a few
small boxes. How could we
accumulate so much of
us have so little furniture. I
just didn't have time to sort

Henry, please send in to you

dispose of a lot that might
company perhaps can be - old
clothes & pamphlets etc
broken play things beyond repair.

ATIONS

P. O. Box 8, Junction Station

RACINE, WISCONSIN

We find it quite commodious
here having the second story
space, cellar & porch & yard.
We are going to love it. This seems
to me such a well planned house
in convenience & so adapted to
our particular family needs.
Brother took it on himself to
get me through through the clay we
came & of course was pessey.
It has been coming for weeks
yesterday it was through & he
slept four consecutive hours in
the yard & then another two
hours later outside.

I wrote about the spinner the
very next mail after Mary's letter
came even if it were so torn up.
Eleanor's letter about it came in
the morning mail, Mary's in the
afternoon & as soon as Henry got
home undecided & I wrote a letter
& took it out to mail for the evening
collection. Sometimes all of you
fail to estimate the time mail
takes between us. Eleanor's letter
was the first I'd heard of the spinner
at all. That was quick deciding for
us. We think it will be all right in size
therein partly the two living room windows
a space like Eleanor's for her cot in living
room. Not less it seems we do need more
