Dear Mr. Hadley, I'm right number  
I'm sure  
You don't know how  
sorry I am & have  
to see the Hadleys. I'm in  
refuse your very  
offer to come and work  
with you next winter. It  
does sound so interesting  
and I know I should  
love it all, the work  
the people, and being  
with you and your family.

Thank you so much for your  
attempt for me and the  
opportunity you've offered. We  
all appreciate it very much,  
and are all more than  
sorry that it can't be  
carried through.

I hope you have a perfectly  
splendid year at the school.  
I'm sure you will - and I  
trust that it will be the  
most successful one ever.

Give my love to Mrs. Hadley  
and the children.

Most sincerely,

Elmore Coates

Wellesley to work. I'm sure  
Mrs. Hadley will sympathize  
with me.

But you see  
how it is, that I cannot  
be with you. I'm sure

the experience would be  
the best thing in the  
world for me and you

surely have the most  
interesting people in the  
world to work with -

perhaps even more  
interesting than

college girls even!

I cannot accept your  
offer because I have  
already accepted the  
appointment as Graduate  
Assistant in the Department  
of Economics & Sociology  
at Wellesley. Don't find that  
impressive? I haven't  
learned anything of the  
kind and it has all  
come up and been  
put through since you  
were here in June. I  
am looking forward to  
course to returning to
