

Hot Springs  
May 30 "Destruction Day"  
Tho' I believe it is May '12"  
in the South. 1924

My dear George -

The great thing you will  
be wanting to know is about Lamm  
so I'll say he is true to himself,  
and heales so much so most any  
one else would be in ten days - he  
now eats a little - very carefully -  
and soft food - In try to keep him  
properly nourished with soft  
drinks - Chocolate with egg-cream  
in his milk etc - so that he feels  
fed - of course he is not ill, and  
has a glorious appetite -

Since I wrote the above we have  
had dinner - with just the same

Carmes mouth is so unimpaired  
that he really had a divine-  
sleece of words falls on small  
folk, but he had it - he is  
a wonder - he acts a little  
tired - but not much.

Here it is Friday afternoon and  
still raining - coolish today -  
but yesterday it was sweltering -  
overpowering - as you said the  
other day, the Southern sun is  
really more burning - tho' the  
hot day here was not so severe -  
about Cairner - once more - I  
will not speak again of him  
if he gets on all right, but will wait  
to see how he looks when the studies  
are taken out - sure he is -  
true - he might not have any more  
than the' than you have, Mr. Sueder.

✓ What a day you had going back &  
forth to S. I. and Town - and nobody  
to speak to when you got to S. I. -  
when I think of you I am protesting  
against to N. Y. C. r 540 -

When I look at Sister and wonder  
how weak & miserable I feel  
when my babies are little and see  
that she is able to carry about a  
strains load - my heart fails me,  
and I just drift.

The eternal housekeeping question  
is up as ever - Even a telegram  
to N. Y. C. more than a week ago  
has not had no response - Of course  
it must have been read by some one  
- as it was not returned.

Sister & Sister are good dis-  
couraged - greatly - I feel pretty  
sure in my mind that they will  
not continue here if things cannot  
be a little changed, it is the hard

to keep pulling against the stream  
"Mulling" is it in line with  
our energetic young people's idea  
of serving the Lord — Then our  
housekeeping has sunk into second  
place, compared with the needs  
for the boys at the same — This  
they do feel they will not be able  
to do their work joyfully unless  
their own housekeeping problems  
can be in the back ground by  
the time school opens.

I could expound on the subject  
at any length —

There are two definite things  
I have in mind of — that  
is in connection with my own  
and your affairs — One is to see  
what kind of help Sister & I have  
after the school clearing is done, &

3 She settled with what  
regular help she is to have  
for the summer - and that  
she'll be in a few days -  
I had thought I'd be able to raise  
said help - as Leedy asked me  
to do - a little before I hear.

The other is of the children  
do run across the way to  
Mc Cornick as there is some  
hint of their doing, I'd like  
my name to help settle them  
before I hear - It is about McCook  
they visited the Board - at least  
that is one thing - — to say  
is too many. Of course that  
has nothing to do with money  
nor "mulling" either I'd think -  
but! Any way I'm friends of the  
treasurer of the Home Board -

They come down here, look  
about, go back to their own  
league of lying, & forget - I  
am sure they must forget -  
at least they neglect -

In all all going down to supper  
at school - I don't want to a  
bit, but I'm being all August  
and going - The loud call is  
ice cream & straw berries -  
with you were here - but there,  
I all the time with that -

There is no sleep to write about  
so why try to write it?

Guess I'll get dressed and walk  
to the children, Miss M-Droit  
is down stairs in conference  
with Senter & Lindsey - which  
will last I guess till we go to supper

4 The same people are to be  
at school too for supper, &  
it is at 5.30 on account of  
Caroline getting here at 6.30.

You should love this Sunday  
morning - I hope you have a  
very pleasant unexpected day.  
I was greatly interested in  
Charles Humphreys letter -  
I do hope he will have joy  
and not sorrow in his trip  
to the plains. I suppose you  
wired him that Caroline  
is not "Carrie" - that would  
be too much!

I wonder when I shall be where  
they are in New York - I'll try  
to make it as happy for them  
as I can, if I am in sight - I

shall be very careful tho' -  
for I am the fool if I am  
spit upon the second time  
especially by a man - or  
Charles did show me some  
in Canada - I don't specially  
resent it, but wouldn't let it  
happen again -

There are several things I have up my  
sleeve to speak about when we  
are together - business etc -  
I'm a bit far & too unsettled to  
write any thing -

With a heart full of love  
as always  
I remain  
Your Caroline

A holiday for you all ahead  
again!

5  
A couple of interesting ideas of the  
boys -

Humphrey doesn't want Caroline  
to look too close at her hands or she  
will get "bow eyed" (cross-eyed)

---

Speaking of Caroline's size, & she  
keeps so tiny cause an amount  
Katherine is only half a girl  
ft, but in her a full girl  
full, don't m?

---

Humphrey needing a clean towel  
asked for one - not a skinning  
one - so Sister thinking he  
didn't want a soft smooth  
one got a small Turkish towel  
Humphrey said "Oh that's the kind  
I didn't want - I don't want an  
all worse flesh" - one -

Of course in all my careful to  
watch Carum so he doesn't hunt  
his hunt - Sister said -

"Carum you must be careful not  
to hunt yourself. I saw you fall  
off - and you came so  
near to hitting your mouth I  
was truly scared" -

Carum standing in front of the  
house, legs apart, looking so big  
& strong, with a fine broad smile  
said "You certainly must love  
your dreams otherwise you saw  
that & I didn't fall at all - You  
certainly must love your hair  
a bad dream"

Sister says was very compact in size  
The boys said "Compared <sup>(compared with)</sup> to that it's  
hardly large at all is it -
