

Keenly is on porch in
Army cot which I got him
he wanted it so much - &
thanks me for it about two
times a day - he's had it
these days - in leave that
free of covers or pillows
so he can move it about
any where, his needle was
part of the time, or in
the middle of the path
between the houses - any where
is my very happy with it.

Hot Springs
Thursday June 26th 1924
My dear George
My dear - My dear -
There are so many
things to speak of and to
hear, so much visiting
for you dear for me - but
but you couldn't read all
I'd write if I could write
it all -
Oh! Don't I wish you were

here this ideal day - Heat
Out one I call you there
in line all over the three
hours - You know how
McCormac is situated?
Well! The house near the
tree, we have the living room
with three or four cot beds
ice, with couch covers, the
table - at which I now sit -
in middle of room - There
are meadows on three sides
so we get about all the breeze

There is - Tom, & Seaside & G. Arthur
are sitting on the meadow tree
stump - and a clock - Seaside
has on one bed - Cannon on another
& Seaside on another - and Seaside
has the two tiny puppets in the
case but much (and much) like
out - for someone sake - too?
I'm to see the Seaside (Seaside) - much
makes Seaside rather practical, as
much she finds out regarding that
early Seaside case.

2 It seems - for the moment
to make him hate his
wed day not a little
less than usual.

The three girls are some
help, some care - Of course
they are a conscience
problem, and not only I
- who happen to have mine
of the domestic kind of the
world, but Sister aims to do
over my best to make the
my my best kind of woman

confessing details that Gray
kinds of poem - old or young -
desires - ie, needs - & trials.

Mr maurice reports - there
give affection - I think it
would not occur to any one
of these girls to be that one
would call for them with me
- for instance - just - they put

of them - They come -
In none have any soldiering
name - In tail - In new
have cross looks - In do -
In think - Sister and I -
if we have to work we are of
less than no use - The
girls are trying inventions -
Several ways we think best
to keep us all straight -
Such as - work apostrophes
(But see way to spell it?) to each
one - & when it is done, so

see they and they are them
free - even if we'll like to them
Some other things have - to them
They will be finished is a big
thing - - One of our other
fast rules is breakfast - meal
or twice, need regularly so at
the last minute there are not
a number lot of changes, and,
