

MISS FRANCES DARLINGTON
346 WEST WASHINGTON STREET
MEDIA, PA.

Feb. 12, 1923.

Dear Mrs. Harvey,

I am so sorry to hear that Edmund has the measles, I hope he won't be very sick with them. Tell him I miss him very much, and hope he can soon come back to school. I am dreadfully sorry he has to miss the Valentine Party. I'll send him his valentines. I know there will be some in the box for him. Give him my love.

Thank you for writing,

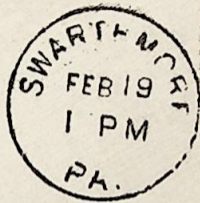

Cordially yours,

Frances Darlington

Monday Feb 19th
My dear Elsie. This is Edmund's dear
teacher whom he loves so much and
indeed he seems to love all his teachers.
and brings home almost perfect reports.
I am sending you Gertrude's letter from New York
so you may know of some things she was
doing. She reached Christie about 8:30 PM
and George brought us right over her home.
Gertrude went to church twice on Sunday
because she was so anxious to hear the music
at vesper. She went to bed Sunday night
and has been there ever since, excepting
when she would get up to dress me under
difficulties and make my bed. She does not
want the District Nurse to come in, or any beds
strange as she says it would make her so nervous
and that condition should not be aggravated.
She is very nervous now. She finally consented to have
one of the District Nurses - though she does not want any, as she thought
