

That ought to wait a
hour ago to Poley - don't
tell on me - couldn't help it:

I am to keep near to usandy
these days - which is not human
du rearm for Chagnoy ink -
- the pen is the cause.

I cannot write - or length -
am trying to get things done
but about your frantic trying to
do all I wish - You know too
it feels to be alone & nothing
picked up except of you & our
self.

Clean up! The worst is
yet to come!

I has a wonderful letter from
Selden Her other day - your
children are fine Elee -
I do wish the boys could get
about a unit, it is so
hard - has for them and
for you too.

Ees. has a letter about
some reading for Willie
a while ago - Oh at Cuba
time - he wants to make
to see if he can do any
help about it - How long
your boys are. There are other
letters than the "Great War"
