

Hot Springs
looked at
Friday morning
June 20th 1924

Dear -

I love you - and by the
time I guess you must
have gathered to yourself the
fact that - I love you.

It is another warning but
dear - and man I worry
about the same things -
same as in event from
day to day.

I tried to send you some
note from Ashville after I
had been to Dr Lynch - but -

what with the mercury
bubbling out of the top of
any self respecting thermometer
and a few dozens of candles
to accomplish before "No. 11"
starts back to Hot Springs
I never got it off.

Naturally we hoped this
visit would be Caenars look
but Dr Lynch was afraid
to take out the stables
as the year has not
sufficiently healed for time
to be sure it would not
break loose again - which
would mean another

²
- Service - It was very
carefullest desert and we
are to go back on Monday,
or if it lasts - or -
or - or -

any thing, before that we
are to call up (a miles
wide) - feet of Do Siquet
is at home or go in to live
sooner. Caen was
not built yesterday -

In this no end of accidents
that you need attention
has a nice location which
set up Caen much - he

slept nearly all the way
out the left side to H.S.

— (his daily nap a couple
of hours late) — he said
with a smile radiant
enough to warrant a much
larger subject — The reason
I slept all the way from
Ashtville to Hot Springs is
because it was so warm, and
I hauled to ?

The life improved much
from Dr Lynch's put & his
seems treatment — + Carum
is better too, he was none
out with it — tub — sees to ~~live~~

3 a new courage -

Overheard

Humphry (who has quite a
good deal of power in
his little legs - too much)

"Why did Jesus make him
cry. Why let He want to?"

Sister wondering what to say
was relieved by Carme -

Carme - "Why are matrons
fussing, fussing about the
cries Jesus has made?"

Always wondering about what
Jesus has done?"

Humphry wanted to know some -
- Hi

about Adam & En — his
husband's reply was tested
to by Caene also —
with much setting up of
his curious little face
Mauea which is the lady
En or Adam? I never
can remember if Adam is the
lady, or if En is ⁴.

The office of Dr Elias
before Dr Lynch took over
Caene — was trying to disrupt
his my frog patent Caene
could never to take out of his
office window at a price by
clear tree — told Caene before

4 pecked a lot of cherries
from that tree to late time
and would have picked none
only the robies was so
cross and disagreeable to
him, scolded so, used
such bad language, he
had to just leave -

Came - "What's bad language?"

Dr. E. "Why they said such
bad words to me I couldn't

stand it!"

Came - "What did they say?"

Did they say ain't?"

Dr. E. scared at the mt to laugh
in Camus face - "Oh! yes
and such worse words than that!"

Worse than aint?

"Things" is love!

How we feel when we keep
of the Factory - the Academy -
of me "Things" indeed!

From your letter I cannot
tell how much you to full
of arguments day spoiled
your face - but you saw
me on the top!

How strange to love so much
all at the same time, then
so deed for so long - I am
going to take life itself
is that way. Full or Empty -
I'll close the spell - even

5 at two great moments.

So two words you.

There are endless things
I want to say to you - but -
how can we write them?

The daily life here is
~~intense~~ - tho' in a way
deadly dull.

I think it writes Lester
my wish to have no one
here to make her brain
against - for there is not
a person who talks of much
of any thing really worth

write - Yes - The day is a
hell, but we cannot talk all

day about "Bok" —
Alvint one can slice so
cut!

Thank you for enclosures &
for two papers - both in
bulk, & clippings -
a chance to read this

I'll be thinking of you all
day Sunday & long you
always -

Love to all the family
