

WOOLLETT COTTAGE  
OXFORD  
NEW JERSEY

July 22  
I think

Much Joe & Aunt Clara took  
me up to Mrs Henderson's  
yesterday to see about a girl  
that Ellen Hurling thought  
I could get - there - but could  
not as there was nobody there  
with Mrs Henderson who had been  
it and her husband also.

That is the second time I have been  
in automobile since I came  
just for those two errands -  
Much love with the earnest  
hope that you are better. Can't  
you get something from Dr Webster?  
Your own devoted Dancer.

Friday Pm.

My darling Gertrude - your  
letter I suppose came this  
morning but I did not see it in  
my Post Office as I was surprised  
by the arrival of the people from  
Jack Hill - Mary Elizabeth - Lydia  
Loring and the boys & cottage movers  
to Easton while Lottie remained with  
me, and we have had such a nice  
time together. I allowed Helme to go  
home so we could enjoy each other  
and any way - she is very particular  
about her food on Friday and her mother  
always knows what to give her - and  
besides I was going to let her go in the  
Pm any way together purse to collect  
money in a contest for this Church Picnic

I think this week Saturday - Howard  
helped me to do everything necessary -  
Fannie managed the lunch for us -  
she brought some of her salad dressing  
and we had Crab meat salad with lettuce  
from Uncle Joe's garden - Cousin Ellen  
had real cutlet. It was so lovely to see  
them all - and they say they are coming  
again sometime. This has been a perfect  
day - had rain last night - and it was  
very warm. Had a letter from Mrs. Thelma  
who is at Lake Placid saying she had  
fallen and broken her right wrist!  
What a shame! that she should have  
another accident. Poor dear Katie I am  
hoping she is getting on nicely - but at best  
it will be tedious. I do hope your very  
smart precious darling are getting better.  
Edmund looks so much better. Has three  
raw eggs a day besides his meals and  
religiously takes an hour's rest - Every P.M.  
Fannie says he is very particular about it.  
and never gets up sooner - makes time  
I wish that just fine - This afternoon Howard  
brought your package, which you so laboriously  
got up - I did need the shoe strings Every  
day Thelma is afraid my string will break  
A great big "dirigible" passed over Oxford  
yesterday afternoon. I did not happen  
to see it but others did. Mattie left last eve
