

1 Miss Mc Gregor told me this morning - that
little Huffle - he's so dear, & to me looks so frail
His mother said - "Miss Gregor when you go to
see Grandmother tell her I am lonesome for her all
the time - all the time." (Nurse to my ear)

This nearly killed me - The other day Huffle said
"Daddie will you let me have ten cents - a 'diamond'?"

"What for?"

My loose paste is all gone and I want to get
some to keep my tees clean, and I have no money
here, I can give it back to you when I get home."

Sunday Jan him a dime & he ran off & got
his loose paste - This baby who has not even lost
his first baby tooth -

The next morning Sunday said, "Nursie, I came
in to bath room when he was shaving and said -

"I only have two nickels, but that makes a 'diamond'
& laid down on the bureau -

Sunday said "I see - what are you going to do
with them?"

"They are to pay for my loose paste, I go to
give them to you when I come home from dinner
yesterday, thank you." (his allowance is five cents a week)

2
- Suedsee said he felt fairly weak, but he
couldn't say a thing for fear -
It seems to me I'll always see that darling little
mouth when I use "those parts"
I surely think I has told you about Cairns desire
to drive a big automobile wth big head lights,
and lots of muds in it
"What kind?"
"The kind you ride dead people around in."
Later he said - or did I tell you? - another day
"Once our souls go to live wth Jesus, you know
that Grandmother, may our souls - and
patting & smoothing himself his dear ^{very} face,
and all this beautiful
part doesn't go, our bodies and all our beautiful
things - des' our souls, and the rest of us
ride around in those beautiful big automobiles
wth big head lights, & muds, & beautiful Ride
Velnt.
When does he know these things? Who told him
about "Black Velnt" & "riding around dead
people"? Who told him about death? I know us dead
he knows what the word means.

3/ The boys were in a couple of minutes this money -
my mind was always open, & this time happened to
be from the bottom - they had a grand time spitting
out of it. You did. I did when you had a chance
at their ages. I didn't tell them not to - I
didn't see it.

It seems I simply heard some one
talking about the Ladies trying to
get their hand back - & a picture
relating to it in the times at
Lancaster. He was so moved that
all the way home he carried
tears for the Ladies & knew
he wanted to see them, & he
told me how much he wanted them
& got their hand back.
Simply is not made for times hand
Stones - I too darling!

I am not sure whether you
did or did not see this letter
I am sending you my -
M. Esth.
