

Though such a physical wreck
herself - You may know Lindsay
is not well again and is up at
Elk Lake for a little while. I just
wonder where they ought to live -
Laut Leo is a wonderful comfort
I am so thankful for his life -
Of course you are enjoying your
wonderful little granddaughters
All Joe's family came down to
see me about two days ago.
Ellen's family and family have been
here two successive Wednesdays as Ed
has a new automobile - and he can
give them this pleasure - He has so much
rain - My grass must now be mowed
with a scythe and I wish it was done
so Mrs Cox's flowers and my currant
and berry bushes could have a little
chance. But I think I have been very
patient about getting things done now
Much love to each of you dear family and
mountains and hills - for yourself. I am
come to it without much and half a mile

Mary
you affectionate Auntie
the
the
the

Woollett Cottage.

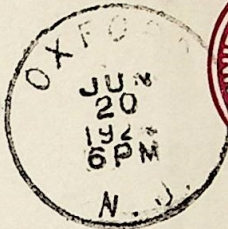

Oxford New Jersey
June 20, 1924.

My dearest Sister Ellie
There is no card availa-
ble to wish you a Happy
Birthday - so I am taking
my best sheet of paper, with
no envelope to match!
I am thinking much about
you these days and wishing
I could make a "Party" for you
I have such strict orders from
my family that I do not dare
do as much as I did last year

My deprecate I am getting my things in order
with Mrs Parsons' help. Mrs Roberts has been here
Friday Friday and was last Friday - and I feel guilty
about it - did I tell you I saw a few dresses
perhaps which is a great help too. I can't seem to
so here with us - and was so "crazy" to get here as I
she is laboriously dusting her room (permitted) and
looks so young as ever. She goes down home in the
morning - for meat and errands and Mrs Parsons goes
in the afternoon. I am waiting for some kind of
take you best. I had a wonderful experience getting
the letter one off but she was not to mail - long for the
one - that experience learned finally, alas, here, that
meat they do with out her - she seems to be the main part

but I did send you a box
with a cut glass dish, which
I sincerely hope will arrive
safely. I made the little apron
for you by hand because I
had no machine having given
it to Ellen Harling - I packed
the box and Mr Tabi Pittenger
put the lid on - I have now a
box which I am sending by
panels past containing a hat I
had fixed for myself - but as I
have been forbidden to ride out
much, what is the use of my
having it. It looks so well on me
I think it will on you. Of course
my packing may not equal
yours - but I will just mention I
am very thankful I could do it at all
especially as I was to it still
