Yes! Any rugs will be welcome.

Once remember our rooms are very small. Some of them are not so small - but they all are sick for rugs - that's sure.

Curtains have come from Gumbels. Very simple at a wonderful price - 2 pairs for both rooms. My cost a pair made.
I haven't had time really to look at them. I think there is plenty for "draperies" in what you sent last year & I didn't use. Better not get any more till I see - maybe tomorrow. It is such a job to get sewed. I hope we can get

settled this time! I do hope so - so much of this life energy has gone to running & getting settled - such a waste of energy.

We are delighted at the prospect of you being here for September. Father's letter came this morning

My

This must go and I will add
anything - but hope to write
some this evening -

Much love
Sister

I guess I know how she felt - an hour
and not how she felt under her age!

O, what do you suppose has
done now! It's 4:15 and I let
Lillie take Caroline back to
the Farm with her - we are
going after our own supper
at five. I am in gloom
and despondency - and they are
out of sight so beyond recall.

I suppose she will eat a
dozen green apples, be stepped
on by horses and cows, chased
by the pigs, stung by a snake
and a thousand other
calamities! O dear, O dear!
