Dearest Mamma

Just a note before we go to Massan to get the boys for lunch. Brother is cutting grass - your postal to M. E. came this a.m. - Hope by this time you have heard from both of us!

I hope too, that you are really better each day. Thank you again for the nice squashes. I know how precious they are, and you know how much we prize and enjoy them. I haven't yet decided about the curtains, for it seems

as if we must try them at the
house. I think they will do very
nicely for some windows but
think they may be too large for
others. Thank you for sending
the sample, and I shall let you
know later about them.

We took Aunt S and G. to
Newport yesterday at 4 P.M.
Then went to Winton's new
house also. He was to marry -
Aunt B. was going to be busy
at her house to day. I expect G. &
Aunt S. here to quire to-morrow.
We think and speak of you
very often, and hope you are
getting along comfortably.
Much love, Evangeline.
