

Just met from some name -
home a "ba" - ba "!

Carlene hears God speak blue

"Where did the speak?"

"In my heart, He speaks to me!"

"What does He say?"

"He said Be happy Carlene - be
happy!"

The night was a little unquiet in
the nursery - but it was good.

The children prayers are fit to be

told - day after day - the latest is -

Sunday has gone to Milwaukee

to class reunion - many prayers have

Did you get a letter with much
jovial deerration or envelope
a few days ago? In an envelope if
it went to you or got sent under.
Carlene wrote a long and loving letter
also I had a letter and envelope in
said envelope - Carlene had many
kisses for Aunt Elsie both inside and
outside the envelope.

The children love him at least or
interest as usual - This morning
I found blue in a large cork bag, not
with the new cakes of soap we had

followed him from all the children - under
from the entire household - but ~~Adolph~~
was perhaps the most in the front - Dear
Jesus -

and bless him while he is in college and
help him not to go with a low grade of ⁴ ~~3~~
In all we go on for a while to the Pines
this afternoon, & stay for supper - the immediate
cause is Eugene & Adolph are speeding
the milk and flour -

Hannah is coming on, and her improvement much of
late - looks better, so well as appearing so. She
might be two instead of four - indeed she and
John are nearer an eye than she used to be.
I do think Sister's children happy & do not a
good deal, quite well - John is perfectly
trouble, he's in some mischief almost for the
share we can pull him out, and destroy such
a make him an expense upon - but -
There is no doubt about his being a ~~lupine~~
Ant Elmer's legs from the other house for
were auctioned off the last couple of days - I
got a little of grip out with J. M. who asked
me - but, decided not. I blame not God for
by any way - Eugene superintended it & I think
was seen on Sat. J. M. Claver, Eugene & Adolph were

she cares very much about clothes
and has for a year or so been at
Loring's place -

When you get her a little you might
visit with Eleanor Jewett - Dr.

Barney Jewett of Clifton Springs Sav. -

this is so very light - she has published
four books and no end of short stories
and poems - and came for work
in another book this time - she

is the faintest person who gets about my
age me I am - with an only child even
more delicate, and Harry with ¹ t. br. ⁴

How does she manage to all? she
has me maid whom she hangs to because
she is so good, and can cook proper foods

There - perhaps for a season - that
I don't know - both days were
rather and bleak and disagreeable
deadly heat for little required - she
is so brown and fine -

It has been poor here for her
last couple of days - is indeed more
and looks more like snow than
rain - Every one has gone to church
but John & I - Caroline was less
than no clothes you know, and has
gone in her night shirt second
Multi baby dress - enough outgrown to
be cute - shut with soap & little dippers
she is a lovely little scrap of life -

Who else is said, and has to lose every kind of
attention and time off and is ill every
now and again - and any for makes any
more and again - how does Eleanor do it -
Here they come from me.

Dearest dear one to you - please
Ellie - and to you Pauline - and to Will
and Marion - and there is one so much
I want to talk about and to love

Caroline
