

George Humphrey

THE ENGINEERS' CLUB  
32 WEST 40TH STREET  
NEW YORK

(Send to Elvira)

December 4, 1933

11.10 a.m.

Lucie dearest

A week ago we had our fine luncheon with M. W. H. and later our nice little visit; how did like to repeat it today!

I have just registered at the ASME desk in the "Engineering Building" and am expecting W. F. Hunt about noon. We will lunch together and attend the Business Session at 2. P.M., after which we will go to Staten Island for the night. We expect to attend the President's Reception tomorrow evening and the Dinner Wednesday; it is to be at the Hotel Astor where I have reserved a room for the night.

I presume that there is a letter from you awaiting me at the Branch; I'll stop in for it when we go down to the Island.

This is a disagreeable morning with a cold rain. M. W. H. came in with me to go to Dr. Robinsons; I went to Gotham (book-store)

to get Miss Whitefield's Calendar, and a card for Mrs Colton; then came here.

Do you remember Mr and Mrs Huxton of Derby Conn, whom we always used to meet at the Conventions? They still attend regularly, and I just met them when I was registering. They had their "Golden Wedding" last June - two months before mine, which never came. They are really very fine people, over kind, interested in Church affairs &c.

Walter is spending about a third of his time in Washington, being on the Engineering Advisory Board under Mr Deles, which passes on the desirability of various engineering projects which the Government is asked to aid. Many of the leading engineers of the country are on the Board and he finds the work very interesting and pleasant. He appears about as usual; seems quite satisfied with Clovis marriage - showed us picture of her and her husband.

The Prices were all at Georges (except Geo A) Jeanne-Marie wants me to come and live with them!

M. W. H. and Lindsay are being invited to
