NEW YORK ELECTRICAL
SOCIETY, Inc.
29 West 39th Street
New York City

Behind the Scenes at Radio City and Rockefeller Center

At the invitation of

RADIO CITY THEATRES
and
ROCKEFELLER CENTER, Inc.

SATURDAY, MAY 20, 1933

THE NEW YORK ELECTRICAL SOCIETY will visit the huge RADIO CITY MUSIC HALL THEATRE with its unparalleled electrical and mechanical features, and the 70-STORY R. C. A. BUILDING, the principal unit of a structural group unique in the world.

Engineers attached to the Radio City Theatres and Rockefeller Center will give short addresses explaining various points of interest.

NOTE: Due to the necessity of limiting the party, and also for identification purposes, badges issued by the Society will be required. These badges will be sent to members, free of charge, upon receipt of enclosed application until the limit is reached.

TIME SCHEDULE AND PROGRAM

Members will meet in the lobby of the MUSIC HALL THEATRE on Sixth Avenue, between 50th and 51st Streets, at 8:50 A.M. This early hour is due to the necessity of vacating the theatre before the regular opening time.

BACK-STAGE VISIT

9:00 to 10:00 A.M. Inspection of the back-stage installations of the Radio City Theatre, rising and rotating stages, power controlled curtains, sound, projecting and lighting systems. Explanatory addresses will be given by:

Mr. M. A. Salomon, Representative, General Electric Co.

Mr. Gene Braun, Music Hall Electrical Engineer.

ROCKEFELLER CENTER

10:00 to 11:00 A.M. Visit of the R. C. A. 70-story structure. This building contains numerous studios and auditoriums, super-speeded elevators, escalators, cooling towers, safety devices, and embodies all the latest technical, commercial and artistic aspects of modern construction. All accessible points of interest will be shown, including the unique terrace overlooking the city from an altitude of 850 feet.

The party will be under the guidance of: Mr. N. Kenworthy, Superintendent, Rockefeller Center.

Mr. J. P. Gavron, Realty Agent, Rockefeller Center.

Mr. E. B. Silverman, Engineer, Clyde R. Place.

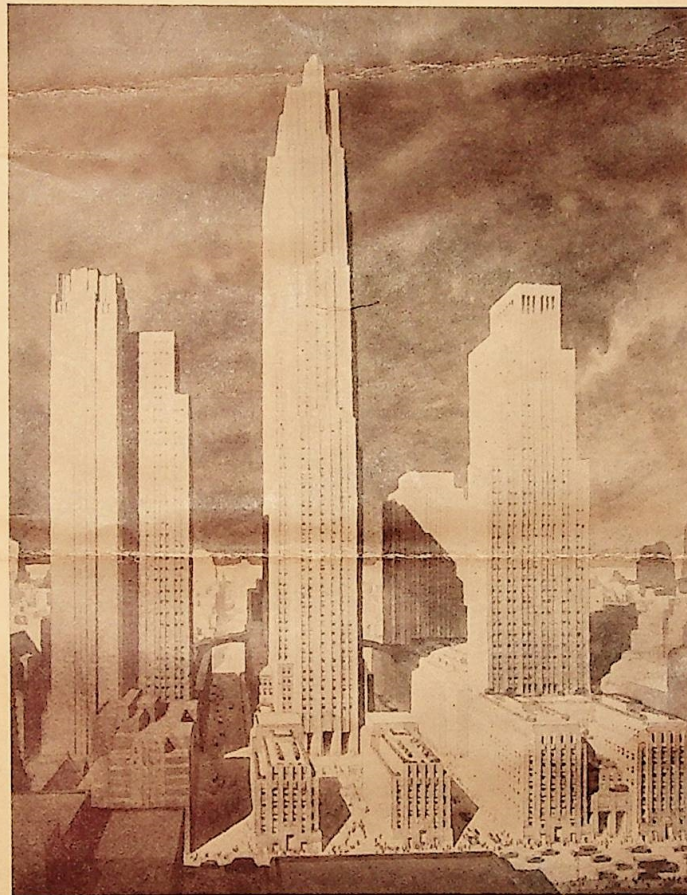

The building will be entered at 1250 Sixth Avenue, between 49th and 50th Streets, and members may join the group at this point, at 10:00 A.M., on presentation of their badge.

11:00 A.M. Return to Radio City Music Hall for the feature presentation in which the various devices inspected earlier in the morning will be used. For this part of the program, members will be required to pay the regular morning admission fee of 35 cents. To avoid delay at the theatre doors, tickets will be obtainable from a society representative on the way out from the 70-story R. C. A. building.

For further information please telephone, Pennsylvania 6-9220, Extension 2
