

10/24/32

Dear Ennie -

Hope you got a bath right away + got right to bed and rested up after I left you. I phoned Will. He said he was not going at this time. See a doctor about your throat if it is bad.

Helen got along fine with the children yesterday. I stayed down as usual last night. The children seem well. So am I.

You better not make bed too soon but too soon if there is reason to stay & you better have a visit now anyway after going so far. Don't let my little dog in mind about staying.

So mother improved? Give her my love, also Mary. and don't forget yourself.
