

I have to wear a stiff corset thing -
but it makes it easier to do things -
I don't drive the car yet - that seems
difficult still. I am not a very good
patient - always in a hurry - so I
overdid a couple of times & made the
recovery slower in the end.

I have been thankful that Louise was
safely established at the Kirk School
and that I did not have to worry
about driving her here & there for her
returning. She is well & happy.

Melanie's younger Melanie was here
for Christmas - very pretty & very gay
& good tempered. She is at
Northfield and goes to Oberlin in the fall.

Oxford - Feb 4
I have written her
about the deaths of
the cousins recently. (Eveline [Jenny])

My dear Gertrude - You have been so
good! I should have known nothing
at all of the Huron family if you had
not remembered me. and I do appreciate
knowing - for father's sake. He was
not very good about visiting his relatives
but he was genuinely interested in them.

I wish you would tell me how you
are. It seems too bad not to be more
acquainted with what concerns you
when I am only 40 miles away! I
don't even know what is keeping you
in bed - only I hope you aren't
still there! I am about again

I wish she were going to Bryn Mawr with
Louise.

I have been expecting Harriet + Sara to come to
Bryn Mawr some time this winter to see little
Sara Tillieghast - but they have never told me if
they came - & I am sure they would have let me
know.

When spring comes a little further along the
way I am coming up to see you -

Affectionately - Louise Sichey

Louise had a fall in her house
and broke a vertebra in
her neck, I think it was.
