

It is either too late to send
it or there is no stamp
so to make sure I addressed
the envelope putting a
stamp in that when I finished
the letter it could be mailed
at once; for if we have a stamp
we can mail letters anytime
all through the night but
the children were particularly
good & mailed it when
they saw it. Thinking I had
neglected to seal it, so that
was how it happened.

39 Blueker St

Mrs. Eldon Front

Dear Friend, I would
have written you sooner in
answer to your kind
letter but I have been ill
again and of course
very busy when recovered.
Mary has had a bad
cold she is much better
& Daisy is at the worst of
hers. but worse than

That George Row "Dr. Sybil Dowley" came home
yesterday & on hardly able to get home in the
first stage, they feared of Typhoid Fever, he has
Bronchitis so badly that I am hoping it may be that
which would be bad enough but not so bad as the
fever. The town where he was practicing is suffering
under an epidemic of Typhoid. His temperature
is standing today at almost 104° so we have sent
for a physician and we are expecting him at any
minute now. It was very kind of you to write so
soon & I am so much obliged to you if I had been
waiting an important reply. It occurred in the
following manner. I often begin & get nearly
through the letter when my neck or back fail &
I have to stop & when I succeed in finishing

We went down the river with
us on our picnic and
the girl holding Grand
in the rapids in one of the
Photos. She married a
young lawyer. The children
all give me love to you & yours
I am grieved to hear that
you are not feeling strong
I hope a year is not half make
you as well as ever. If I had
had the money to spare you
would have been Grand by this
Summer. Goodbye and be yours
Loving friend Annie G. Oweley

Miss Robt is a very sweet
girl, I do not see her now
as her mother went to
Ottawa last Fall. She
got the position of (Motherly
Secretary) I should say
in the Ottawa Young
Ladies College. A very
good position with pay
for herself & girls. The second
girl Miss Anna got a
position as teacher I think
at Lennox so they are very

comfortably situated & when they were so near
think: Did you go to the
for the "jubilee" I was very
ill at the time. Oh! what
a lovely photo that is of Mr.
Belden in the report & of
you too. I'm glad to have them
I think to make sure of this
going will close road. but
first I am so sorry the
girls did not take time
to run over to George's
for a few days at least.

I hope that I may accept
your kind invitation some
other year as I trust you
will come. Maza was down
in Campbellford at her
Cherrie's wedding. She ^{got} away
from a bad cold. but she
is getting over it. We have
had lovely autumn weather
so far. The girls would
remember Clara Dunk.
