We are so delighted
& hear such good
news from Ellen. I
expect that Mary is
with you this week,
and I can imagine
what a good time you
are all having.

Gypsy Smith has
been conducting
meetings in Long Beach
 lately. We went in to
hear him once. They
had a monstrous tent,
almost two blocks
long which had been
used for the Auto Show.

Dear Mother -

Just a little note this
morning before the post-
man comes, and before the
Lordship Teddy has his
breakfast. I was going
to get up real early and
wash to-day - of course,
I wash every day, but
I don't count that -
but when I woke
up about five o'clock

them, but I got tired
waiting for them to
appear and dug up
one! I've noticed that
things never do grow
when you dig them up!
That's what happened to
some of the tulips too, but
some are in bloom! We
have four pomgranite
bushes too. You'd think
from the things I mention
that we had a wonderful
country estate, but our
lot is really very small.
The garden is so small
that I've almost decided
to plant nothing but

to find it was raining.
I'm very sheepishly went
to sleep again. Now, the
rain is over and it is
bright and sunny. We
have had some fine rains
lately and the grass is
looking nice. The trees
that I've been planted last
year are all coming
out in leaf. The plum
and peach and almond
are in bloom. We
have a tiny orange
tree in the garden which
grew from a seed. I've
planted it last year. We
might have had two of

sets up a howl. I
don't like that, but
I guess there is
nothing to do about
it, except for him
to outgrow it. On rainy
days, his hair is a mass
of the tightest curls -
too pretty for any thing.
Much love, and
best wishes for a
happy Easter,
Conal.

He wakes up, he feels
he must stand up.
He can hold on with
one hand and sit
down now, so there
isn't much danger of
a bad fall when he
lets go by accident.
At first he didn't
know how to "fold up"
and he fell in one
piece. But he is so
careful and cautious
that ~~there is not~~
he doesn't seem to
get many falls lately.
He is getting to be a

and absolutely wonderful
in a man of his age.
I noticed in the paper
last night that Dr.
Campbell Morgan is
to be in Long Beach next
week.

Well, I must give
the young man his
breakfast. He is
walking by chairs these
days. In the mornings
he stands up in his
crib for two hours at
a time. The minute
