

Studies & about every thing.  
I think it would be very  
kind if you would stop in &  
see Mo. Merriam & give her my  
love, & ask her if there is any  
way you can leave her. She  
may write to her very soon. Her  
seems like a good deal of  
writing for me to do every day.  
I have been writing to Jimmie  
today about our visits there,  
& that is why this letter is  
so poor, for I am really  
tired, altho' I am well. It  
is a hot day too. I am  
finishing this on Monday.

This seems like a cool business  
letter - but you know how I am  
bound up in all your successes  
& in every thing that comes into  
your life. You are still my  
precious boy altho' so tall  
and strong, & I expect great  
things of your future. But  
remember, much in your future  
depends on this year's school  
work. Delen, put your studies  
first in your thoughts & efforts  
& look to God for help, and  
I am sure you will come  
out all right.  
My love to Mrs. Delen & all  
friends.

Keep me posted, + maybe I  
can do better at writing to  
you when I am more  
settled.

Always your lovingest one  
Mamma.

If George Kilbon should be  
passing thro' Wilkesbarre or  
Scranton, on his way to N.Y.  
he could easily stop at Myom-  
ine + make a call. This is  
the most hospitable home.  
The trolley passes the house.

Address for this week  
Care Rev. W. S. Stiles, Wyoming Va.

(77)

I am glad that you got the  
job at Hartens, only I am  
a little afraid you studies  
will suffer. Seldom, you know  
you can't afford that, just  
at this present time. You  
must get through high  
school this year, even  
if you should lose a good  
job to do it. Put that  
first, + not photography  
for this year. It will  
mean every thing to your  
future, + to mine too. Please  
keep me posted about you
