My dear Mr. Belden,

I have been trying
to get Dr. Ashmun for some
days to enquire about our
Bill for a committee to
be appointed to look after
that Inferiatio + Hospital.

I have succeeded in getting
him. But he says the Gov.
has done nothing about
the appointment. The Bill
passed both houses, & now
it is up to us to bring a
strong pressure to bear
upon the Gov. to make the
appointments.

I had a talk with Miss
Ingersoll the other day &
she told me Mrs. Whitacre
had gone to Europe.

Now you are the one,
it seems to us, to write a
strong letter to the Gov,
& lustily plead our cause.

It simply means the
appointment of 3 members
of a committee of whom it
seems to us Dr. Robinson
should be one. Can you
attend to it right away.

I have been so delirious &
it becomes (?) me to hurry
others. The fact is Dr. R.
failed

to reach me by 'phone which
made quite a hiatus. *

I beg a thousand pardons
for all these suggestions
but you see as we started
this move we don't want
to lose our vantage
ground after three years
fight. I see Massachusetts
has got in ahead of us.
My first suggestion, 3
years ago, was that we lead.
I am going to Mass this
week where my address
for the summer will be

Mrs. G. L. Cogswell
No. Plymouth,
Mass.

* a stupid woman blundered.
