Dear Miss

Dear Ellie,

The invitation

to your daughter's Com-
mencement exercises was
forwarded to us a few
days ago. Thank you for
the remembrance - so
many years have gone by
since we have met that
we had thought ourselves
by other - Occasionally
I see many as the girls

About from June to June
is dead if I be would my
I am a little longer in
one spot an opportunity
of meeting would be better.
The last time I saw her
was in Bethlehem at the
Buck festival & had it
not been that she had a
Commencement on hand for
June 18th she said she
would have waved us a
good by from the broken
dock as that was our
parting date. We have only
been on land one week but
we have seen in that time
a great deal of this coun-

try. I will count going as far as
Lund's end & seeing the
"rise & last home" in Eng-
land. To day is the fourth
of July but instead of fire
crackers & '90 in the streets
we have nothing to listen
to but the noise of the
waves & the tips of our
noses are cold with the
thermometer at '60. We
are going on to London in a
few days & later to the
Continent where our move-
ments are uncertain -
Edward will join us some
most probably as he is in
the ocean now. How different

Our lives have been when
I look back 25 those pleasant
days in Exford & think of
all the changes that have
taken place. We visit our
family gradually diminish
high in with so many
young lives to provide for.
I shall be very glad some
day to have a line from
you telling me about your
arrangements & what your
daughters' future is to be.
Miss Jane I hope is very
well, will you not give her
my love & tell her how much
we need to enjoy her letters
The address is 210 Brompton,
Shepley & Co. London.
