Dear Sir

We regret that we

could not use enclosed MS.

If we had some brief

statements about the places

in which simultaneous

meetings have been held and

of the trend of the meetings

we could use it. Such

meetings are of deepest interest

and importance and yet

When any lengthy report  
of them is attempted, it  
is more difficult to  
say anything that has  
practical & permanent  
value. Sometimes the  
more useful the meeting,  
the less possible is it to  
make an article that will  
give any facts to be noted.

We thank you heartily for  
your courtesy in submitting  
the article. Yours Truly
