Dear Will

I have received your insurance policy back, from the North River, changed so that it now covers your property in the house at Bristol.

About the 4<sup>th</sup> of June I received a letter from you asking about drawing \$75 # from your Savings Bank a/c and saying that you wanted the money at once. In order to hasten matters I at once sent you my check. I have heard nothing from you in reference to the matter since but attributed it to the fact that you were overrun with business in moving re but today I had my <sup>bank</sup> book balanced & find that the check has not yet come in for payment. Did you receive it?

On Saturday I went with my two boys up to Lake Hopatcong and Abbie & Miss Craigie came on from Dover to the Lake. Abbie seemed quite well & said that ma was also well but that Lucy had some throat trouble that was very annoying but had not yet called in the doctor.

How does Bristol appear as you become acquainted? Are the children yet acclimated? I thought you spoke a little doubtfully in your last.

Please give my best regards to Ellen & the twins - I suppose I am nothing but a name if I am even that to the other children so I will content myself with wishing them good health & great enjoyment of the new home.

Yours truly  
W Ellagic
