

My cough has about gone
but Gertrude has had
a distressing cough
especially at night -
She seems better now
since breakfast and
is playing on the piano.
She has been keeping
Annie a little stirring
a cake - Annie has
wielded some fruit us
for this afternoon; informal
There were two friends
here to supper with us last

leaving - from two hours
away somewhere in
Chicago in order to go
with us to "Aunties" new
church (Grace) to hear
the Messiah. Oh how
I did drink it in again
very sweet soprano
voice for Solos. I liked
the other Solos also.

The Chorus was good
but not equal to Calvary
Church in New York

It has the appearance of
wanting to snow and
the sleighing is really
very good now. but I
think there is no snow
in New York or New Jersey
I have been thinking
much about Cousin Fannie
getting away from the
Hospital. I hope she is
on the way to better health
How quickly this month
has passed - I hope the Dr

was able to give you some
permanent relief -

I am hoping you have
planned to spend Sunday
at the Reiber's - to give
you an entire change
of food and surroundings.
Gertrude is invited out to
lunch with one of the girls
on Monday - Gertrude has
written to Florence Piper to see
if she can spend Sunday
with us - Good bye. Marie
